

Monitoring and evaluation in NTCA: building a system

March 2023

Olha Krasovska

Integration of **monitoring, evaluation and learning** to the policy making to ensure making **justified decisions** leading to the creation of inclusive and sustainable economy:

How

1. 'Working for people we need to know them' = **participatory approach** and proper collection of evidences

- Needs assessment, surveys, e.g. 600 consultations around UKSPF
- Balance between collection of equality data and their protection

2. Comprehensive system of **verified indicators** to track achievement of results at the level of outputs, outcomes and impact

- Output/outcome guidance for UKSPF **BUT** be brave to go further
- Exclude ORs (Commercial buildings developed or improved)
- Add what you need (Increased amount of low or zero carbon energy infrastructure installed is it enough to measure efficiency?)
- NTCA wellbeing framework <https://www.northoftyne-ca.gov.uk/projects/roundtable-on-wellbeing/>

How

3. Ensuring **contribution of different development projects** to the overall performance and achieving main targets

How

4. Consider **theory of change and logic models** as your friends
5. Embedding **Learning** to the existing approach to monitoring & evaluation:
capturing lessons learnt
6. Establishing a strong system of **external and internal evaluations**

NTCA M&E Roadmap

- I. Introduce a new Structure of programme and projects – Devolution is coming
- II. Build a system for projects monitoring (software) – user friendly for applicants, programme managers, PMO team
- III. Ensure coherence of data collection (Ensure avoiding overlaps in data collection + equality data)
- IV. Relaunch reporting system (e.g. joint output/outcome guidance for UKSPF and Investment Fund)
- V. Ensure coherence of M&E policy in the NTCA (M&E, Assurance and Wellbeing frameworks)
- VI. Ensure impact assessment of funds' spending (when, who, how)
- VII. Ensure proper conducting of external evaluations (criteria, approaches)
