

ALBERT LATNER MEMORIAL LECTURE IN CLINICAL BIOCHEMISTRY

2018-19	Professor Anne-Marie Minihane, University of East Anglia	Fish oils and brain health: what dose does what in whom?
2017-18	Professor Anne Tybjærg-Hansen, University of Copenhagen	Familial cholesterol, an undiagnosed and undertreated disease
2016-17	Professor Bill Fraser, Professor of Medicine, University of East Anglia	Give me sunshine
2015-16	Professor Naveed Sattar, Professor of Metabolic Medicine, Glasgow University	Cholesterol, statins and heart attack risks: the truth of the matter
2013-14	Professor Ian Young, Professor of Medicine and Director of the Centre for Public Health, Queen's University, Belfast	My cholesterol – Why is it high? How low to go?
2011-12	Professor Stephen O'Rahilly, FRS, Professor of Clinical Biochemistry and Medicine, University of Cambridge	Common metabolic disease – lessons from the extreme
2010-11	Professor Panjaj Vadgama, Director, Interdisciplinary Research Centre in Biomedical Materials, Queen Mary, University of London	Making biosensors to track an unstable world
2008-09	Professor Chris Higgins, Vice-Chancellor and Warden, Durham University	Stem cells: science, medicine and ethics
2001-02	Professor Christopher Edwards, Vice-Chancellor	From the bedside to the bench: in support of clinical biochemistry
1996-97	Professor K G M M Alberti, Dean of Medicine, Newcastle upon Tyne	Biochemistry in the field: From Killingworth to Kilimanjaro
