

Transfer to Medicine or Dentistry

All applicants who are successful in securing a place on our Biomedical and Biomolecular Science degree programmes are eligible to apply to transfer to Medicine or Dentistry after their first year of study.

- Students will be selected in their first year, based on their UCAT score, a personal statement, their first year performance and, if shortlisted, an interview.
- Transfer is into the first year of the Medicine or Dentistry course the following academic year. A lecture timetabled in the first semester of first year will provide further information regarding the transfer schemes and the application process.

Transfer to Medicine

- The MBBS Medicine and Surgery programme is led by the School of Medicine.
- Up to 7 places available via the transfer scheme.
- **Academic requirements:** a minimum average mark of 75% across the 1st year modules, with no less than 65% in any one module.
- In 2022-23, 44 students applied to transfer to Medicine, of which 9 were interviewed and 7 offers were made subject to semester 2 exam results.

Important information

Applicants need to provide evidence of a personal UCAT score achieved within 2 years of commencing their Bioscience programme on application to the MBBS or BDS transfer scheme (i.e. UCAT taken in 2022 or 2023),

Details on how to register and sit the UCAT can be found at:

www.ucat.ac.uk

It is the applicant's individual responsibility to have a UCAT score ready at the time of the transfer application.
